EXAMINER'S AMENDMENT

1. The application has been amended as follows:

Claims 12-14 have been cancelled.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance:

The Applicant had originally elected Invention 1, without traverse. The Examiner then rejected claims drawn to this Invention relying on a combination of prior art.

The Applicant has amended the claims to include characteristics of the data processor of the originally claimed testing card, that in combination with the overall card, are found by the Examiner to be neither anticipated nor obvious over the prior art. The Examiner finds no obvious motivation for one of ordinary skill in the art at the time of invention to have further modified the combination previously relied on in rejection of claim 1, to include a data processor that performs testing consistent with the specific limitations of the Applicant's recent amendment. An updated search of the prior art has not yielded any new grounds of rejection.

Linking claim 9, which depends on allowed claim 1, and independent linking claim 15, which contains limitations analogous to claim 9, were then subject to search and were deemed allowable, claim 9 by virtue of its dependency of an allowed claim, and claim 15 by virtue of its inclusion of analogous allowable subject matter with respect to the specific limitations of the processor in the specific testing card.

Claims 12-14, drawn to the non-elected Invention, were accordingly cancelled, placing the pending claims in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
